WORK EXPERIENCE

Developer Intern
Aitan Labs

2020 Dec-2021 Jan

- Successfully contributed to developing the mobile application "NammaTulunadu" which was successfully published on the Google Play Store.
- Leveraged the power of the **Scrapy** framework to collect and curate news data, hosted on the **Zyte** platform.
- Implemented the efficient storage of data through the use of **MongoDB**, ensuring seamless retrieval and utilization of data.
- Designed and executed a robust backend system utilizing **Node.js**, providing seamless functionality and reliability to the application.
- Optimized the use of **Flutter** to deliver an exceptional user experience, resulting in a more intuitive and user-friendly interaction for end-users..

Mobile Application Developer Intern

Aitan labs

2020 Dec-2021 Jan

- Played a crucial role in the development of the "Puc Info" mobile application, which was successfully published on the Google Play Store.
- Designed and implemented various login and user-related features in the frontend using **Flutter**, **FireBase** effectively managed state with the **bloc architecture**.
- Ensured secure storage and management of user data through the utilization of **MongoDB**.
- Optimized the backend code for maximum efficiency, resulting in seamless and reliable performance for the application.

PROJECTS

Info Hub

- Developed a highly functional Q&A website utilizing **React.js** and a **Node.js**-based backend.
- Created a robust server environment using **Express.js** and **MongoDB**, providing an efficient platform for seamless website operations.

CERTIFICATION

- **MongoDB Certified Developer, Associate (C100DEV)**
